MUHAMMAD ZIDAN RAMADHAN

Bandung, West Java, ID | muhammadzidanramadhan31@gmail.com |
https://www.linkedin.com/in/muhammad-zidan-ramadhan-47b9892a8/

Informatics undergraduate at Telkom University with a strong passion for technology, data, and cybersecurity. Proficient in C++, C#, Java, React, and Go, with ongoing learning in other programming languages and Unity for game development. Fast learner, detail-oriented, and adaptable in both independent and collaborative environments.

WORK EXPERIENCE

Lighting Specialist, Giant Production Bandung **Aug 2019 - Present**

- Set up and operated lighting equipment for events such as graduations, community celebrations, and private gatherings.
- Adjusted lighting to match event flow, stage activities, and atmosphere requirements.
- Coordinated with event organizers and technical teams to ensure optimal visual presentation.
- Performed equipment checks, troubleshooting, and maintenance to ensure reliable operation.

Cameraman, Giant Production Bandung **Aug 2019 - Present**

- Operated video cameras to capture events such as graduations, community celebrations, and private gatherings.
- Managed camera angles, focus, and framing to capture key moments effectively.
- Collaborated with event directors and crew to ensure smooth coverage and transitions.
- Performed equipment checks and organized recorded footage post-event.

Network Administrator Internship, Yayasan Taruna Bakti **July 2025 - Present**

- Developed and optimized the ICT Taruna Bakti web service using React (frontend) and Laravel (backend).
- Improved system performance to ensure faster load times and efficient resource usage.
- Deployed the application on a Debian-based server and integrated it with the central infrastructure.
- Worked with the ICT team to enhance system reliability, scalability, and maintainability.
